PROFESSIONAL SUMMARY

Efficient Software developer with training in mobile app development using React/React Native, and data analysis using NoSQL databases. Eager to further hone diverse skillset and knowledge base in data analysis. Well versed in SQL, Python, Excel, and Tableau.

WORK HISTORY

React Native Software Developer   **07/2021 to Present**
Refresh Inc. - Remote

- Collaborated with other developers to build a web, and mobile-based application using React and React native
- Partnered with company mentor to learn best practices in software design.
- Investigated technical challenges to identify root cause and provide expedient resolutions.
- Met with senior developer and Supervisor on weekly basis to provide detailed project report and milestone updates.
- Implemented interactive features into our platform using JavaScript and React native frameworks.
- Attended development team trainings, companywide meetings, and standups.
- Prioritized assigned requests/tickets and completed in order of priority.

Data Entry Clerk   **05/2021 to 11/2021**
Shared health - Winnipeg, Manitoba

- Scanned documents and saved in database to keep records of essential organizational information.
- Compiled data and reviewed information against original documents for accuracy prior to input.
- Maintained ongoing communication with relevant departments to confirm accurate data delivery.
- Added documents to file records and created new records to support filing needs.
- Corrected data entry errors to prevent later issues such as duplication or data degradation.
- Kept optimal quality levels to prevent critical errors and support team performance targets.
- Verified accuracy of data before transcribing.

COVID-19 Contact Tracing Investigator   **11/2020 to 05/2021**
Statistics Canada - Winnipeg, MB

- Communicated with documented COVID-19 patients and other exposed persons via phone call, text, e-mail, and other platforms.
- Reached out to people newly diagnosed with COVID-19 to determine contact histories and potential exposures.
- Contacted people exposed to individuals with COVID-19, assessed symptoms and referred for testing.
- Offered basic guidance regarding testing and medical consultation for those exposed to people with COVID-19.
- Performed record keeping by logging client information within secure contact-tracing software.
- Provided educational and informational resources regarding isolation policies and quarantine measures
